

ITALIAN QUALITY & DESIGN

PROFESSIONAL AMERICAN ROULETTE WHEEL

GLI-25 in specific configuration only
Roulette Control System

COMPANY PROFILE

The Abbiati Company is privately owned by the Abbiati family and is based in Turin, Italy. Abbiati Casino Equipment has been in business in excess of 30 years and has had its professional articles for Casinos since 1976.

Abbiati has built up an international reputation and client base with almost every county and city that offers legalized gaming.

The company is on two sites within 50 metres from each other; one housing Office, Show Room and Production facilities and the other is used for assemblage and storage; with the option of expansion on both sites.

Abbiati Casino Equipment's main business is manufacturing and supplying Casino based equipment as used in live gaming: Roulette Wheels, Tables, Value Chips, Plaques and Jetons and all styles of gaming layouts (table felts) together with technical back up of full CAD design and technical services.

Our manufacturing facility is split into three main sections, all located under the same roof:

- Chips and Plaques are manufactured with the latest injection moulding machines, incorporating the latest RFID Technology using 13.56 MHz with PJM.
- Table and Roulette Wheel manufacture and assembly incorporate our CNC machining processes to ensure quality and precision, along with Layout (table felts) design and printing department for both wool and synthetic products.
- Electronic departments for the assemblage of Winning Number Displays, Laser Wheels and Independent electronic levelling systems for Roulette wheels.

All our manufacturing processes are supported by our Graphic and CAD Design department, to ensure Italian Quality and Design.

Quality, Service and Security are prime objectives for the Abbiati Company, which has secure rooms and high surveillance for the final assembly of the value chips incorporating RFID.

Our consistent growth and success stands as a witness of our continued commitment to deliver high quality, flawless products and services.

President
Giovanni Abbiati

ROULETTE WHEEL

ITALIAN QUALITY & DESIGN

LEVELLING SYSTEM

The innovation of the system is composed of three elements which operating in a perfect synergy are able to assure the roulette wheel its flatness during all the operating period.

The first element is a rigid support which is independent of the gaming table, equipped with a mechanical system which adjusts some levers able to interact on three antimagnetic lifting groups having a centesimal precision; it is placed at 120° on the concentric circumference of the roulette by assuring the maximum supporting rigidity, the absence of any possible vibration and the maintenance of the flatness acquired.

The second element consists of three sensors that through an electronic circuit can constantly control the position of the roulette. The result of the control is transmitted by a data bus to a remote central that, by using a special software equipped with a user's interface, can visualize every situation. The control station is able to monitor more tables simultaneously. A password system allows several operational degrees.

The third element is an electronic level equipped with a support carried out to be rested on the roulette wheel and connected to a portable pc by using a software which can guide the operator in order to obtain a precise levelling of the roulette.

The term flatness has to be considered as a line up according to which an element is perfectly parallel to the plane.

SOME INDICATIONS

The system is operating in many prestigious Casinos around the world.

Abbiati produces laser wheels with invisible laser.

Three very high precision laser sensors, pursuant to security & safety 1A regulation are embedded into the ball track.

NO holes and NO visible lights.

Thanks to these lasers, the controller captures

- Speed and direction of the ball,
- Speed and direction of the cylinder,
- Deceleration of the ball,
- No more bet,
- Winning number and
- All "status" of the wheel.

Moreover, the sophisticated Laser can identify at all times any functional anomalies. These anomalies can be either mechanical or those of the dealer, and allows immediate intervention. screen next to the roulette, the central security office and external terminals for remote play. The data gathering makes Wheel Analysis possible as well: a statistical analysis of the numbers that just appeared or are delayed, which increases customers enthusiasm.

The construction features and management methods of the system of this new roulette wheel provide: maximum precision, fast and accurate data transmission to all devices in the network, improved monitoring and security of play.

This roulette wheel represents a new frontier capable of satisfying even the most demanding of clients.

(54) **Roulette wheel equipped with an electronic control system**

(57) A roulette wheel is described, of the type comprising a wheel (14) which includes a first ring (20) on which numbered compartments are shown and a second ring (22) provided with pockets corresponding to the numbered compartments of the first ring (20) and adapted to receive and retain a ball during the course of the game. An associated control system comprises:
- first optical sensors (24), adapted to detect the angular position of rotation of the wheel (14) by means of the

detection of markings (26,30) associated therewith;
- second optical sensors (32) arranged in association with said second ring (22) and adapted to detect the angular position of revolution of the ball along the circumference of said ring (22); and
- a data collection and processing unit (40) connected to said first and second sensors (24,32) and arranged for the synchronous acquisition and analysis of the position signals of the wheel (14) and the ball, respectively, during the various stages of the game.

Certification #	C-2011ABB001LC217
Date	30 December 2011
Page	1 of 2

GLI Europe B.V. hereby affirms that the product(s) listed have fulfilled the conformity requirements specified in the scope of certification:

Scope of Certification:

Product Name	Abbiati Roulette Control System
Product Style	Dealer-Controlled Electronic Table Game
Description of the Product	American Roulette Laser Wheel - Single Zero and Associated Software
Applicant	Abbiati Casino Equipment
Recipient	Mr. Giorgio Abbiati, CEO Abbiati Casino Equipment Strada della Risera 9 10090 Rosta (Torino) Italy
Manufacturer	Abbiati Casino Equipment
Jurisdiction	N/A
Requirements	GLI-25 Dealer Controlled Electronic Table Games V1.2

Supporting reference documents:

Document	Source
Report #	2011ABB001LC217 dated 30 December 2011
Internal reference	SY-00-ABB-11-01
Remarks	<p>Note: Annual surveillance is required for this product to be eligible to use the "Gaming Labs Certified" mark.</p> <p>GLI-25 certification only applies to specific system configuration as a utility program to aid operators in configuring the product and monitoring its performance.</p> <p>Reevaluation is required for GLI-25 certification to extend to the following product configurations or conditions:</p> <ul style="list-style-type: none"> • Use with a display unit/monitor that displays the game outcome to the player • Use with remote terminals • Use of data captured or stored by the system is regarded as the official accounting/win information subject to third-party or regulatory audit/review

Terms of Certification

This certification applies exclusively to the product(s) specified and described in the Scope of Certification for conformity to the jurisdictional standards, specifications and/or requirements also listed in the scope subject to any remarks or other conditions specified. This report is issued solely for the benefit of the Applicant and may not be relied upon for any reason by any person or entity other than the Applicant including, but not necessarily limited to, the manufacturer and/or developer of the items (a "Third Party") which are the subject of this Report, notwithstanding the fact that a copy of the Report may be delivered or otherwise made available to a Third Party. In this regard, the Applicant and any Third Party will be deemed to have acknowledged that nothing in this Report is intended to create, nor shall it be deemed or construed to create, any relationship between (a) the Issuing Organization (GLI) and the Applicant other than that of independent entities contracting with each other solely for the purpose of the preparation and submission of the Report; and (b) GLI and a Third Party. Neither GLI nor the Applicant, nor any of their respective employees or representatives, shall be construed to be an agent, employer or representative of the other.

Certification #	C-2011ABB001LC217
Date	30 December 2011
Page	2 of 2

GLI warrants to the Applicant that all services provided by GLI hereunder have been performed in accordance with established and recognized evaluation procedures and with reasonable care in accordance with applicable laws. GLI does not make, and expressly disclaims, all other warranties of any kind, expressed or implied, including without limitation any warranties of non-infringement or merchantability, suitability or fitness for a particular purpose. Without limiting any of the foregoing, under no circumstances shall the opinions and conclusions established by this report be construed to imply any endorsement or warranty regarding the functionality, quality or performance of the subject product(s), including, but not limited to hardware or software. No party or person shall state or imply anything to the contrary.

The Applicant is required to notify GLI if:

1. There are any changes to the organization or requirements.(i.e. Change in ownership or insolvency)
2. The certification issued by GLI is not used in its original context or for the product(s) referenced in the certification. Any alterations to the report will render it invalid.
3. The certification report issued by GLI is not used for the intended purpose and if there are any misleading claims that may misrepresent the product(s) identified in the certification report or claims that may bring GLI or the certification into disrepute.
4. This applicant is discontinuing the use of a withdrawn, suspended or revoked certification as evidence of product conformity.
5. You receive any complaints are from external parties about jurisdictional compliance of the certified product(s). In addition you must keep records of any complaints you receive about the certified product(s) and actions you have taken as a result. Related records must be made accessible to GLI if requested.
6. The products listed above should no longer meet the requirements specified in the certification.

Visit our website for information regarding use of the "Gaming Labs Certified" mark as additional conditions may apply.

If you should have any questions regarding this information, please feel free to contact our office at +31252-529-838.

Sincerely,
