MONEY WHEEL

The Abbiati Company is privately owned by the Abbiati family and is based in Turin, Italy. Abbiati Casino Equipment has been in business in excess of 30 years and has had its professional articles for Casinos since 1976.

Abbiati has built up an international reputation and client base with almost every county and city that offers legalized gaming.

The company is on two sites within 50 metres from each other; one housing Office, Show Room and Production facilities and the other is used for assemblage and storage; with the option of expansion on both sites.

Abbiati Casino Equipment's main business is manufacturing and supplying Casino based equipment as used in live gaming: Roulette Wheels, Tables, Value Chips, Plaques and Jetons and all styles of gaming layouts (table felts) together with technical back up of full CAD design and technical services.

Our manufacturing facility is split into three main section, all located under the same roof:

- Chips and Plaques are manufactured with the latest injection moulding machines, incorporating the latest RFID Technology using 13.56 MHz with PJM.
- Table and Roulette Wheel manufacture and assembly incorporate our CNC machining processes to ensure quality and precision, together with Layout (table felts) design and printing department for both wool and synthetic products.
- Electronic departments for the assemblage of Winning Number Displays, Laser Wheels and Independent electronic levelling systems for Roulette wheels.

All our manufacturing processes are supported by our Graphic and CAD Design department, to ensure Italian Quality and Design.

Quality, Service and Security are prime objectives for the Abbiati Company, which has secure rooms and high surveillance for the final assembly of the value chips incorporating RFID.

Our consistent growth and success stands as a witness of our continued commitment to deliver high quality, flawless products and services.

CLAPPER FOR MONEY WHEEL

BIG SIX WHEEL OR MONEY WHEEL

The big six wheel: Also called the wheel of fortune.

Game summary

This game called Big Six, Money Wheel or Wheel of Fortune is played on a vertical rotary large wheel with a fixed indicator/pointer on the edge.

The wheel has 54 (USA) or 52 (Australia) slots/sections representing six groups of the six main betting odds. The number of slots in each group is indirectly proportional to the odds they offer (the higher the odds the fewer the slots). The object of the game is to guess in which group slot on the big six money wheel the indicator will point to when the wheel stops following the spin.

How to play Big Six

Playing big six is very simple and requires no skill. Just place your bet before the big six money wheel is spun. When all bets are placed, the dealer grabs one side of the wheel and spins the wheel with a strong pull and push downward action (see picture).

The wheel then makes a few turns and slowly grinds to a stop. The marked number the indicator points to when the wheel stops is the winning number and payoff amount. You may bet on one or more numbers at the same time. Below are the groups division and number of slots in each group, the odds, payoffs and house edge for both, the American and the Australian big six wheel.
