

Open-21 Blackjack™ Ten 20 Bonus™

Standard Blackjack rules unchanged other than as set out below.

A Dealer's two-card total 21 does not count as a Blackjack, it acts as a 21.

Player's Blackjack is an Automatic-win, Pays 3 to 2.

Player's 21 point is an Automatic-win, Pays 1 to 1.

1. Each Player must make both a main wager and an Odds-Win wager equal to half his main wager, and an Optional Side-bet (Ten20 Bonus).
2. Each Player and the Dealer receives two cards (all face-up).
3. If the Player's two-card hand total is Even then his Odds-Win wager loses; otherwise it remains in play.
4. Play continues as normal Blackjack and the Odds-Win wager is resolved in the following way:
 - a. If the Player wins on his hand, his Odds-Win wager (if any) wins 2 to 1.
 - b. If the Player pushes on his hand, his Odds-Win wager (if any) will push.
 - c. If the Player loses on his hand, his Odds-Win wager (if any) loses.

Optional Side-bet (Ten20 Bonus)

Ten-20® wager wins when the Player's Initial Two-cards Blackjack-hand add-up to a Total of 10-points or 20-points.

Ten20 Bonus
