Progressive System For Poker Rooms

GES Poker Room Bonus - Overview

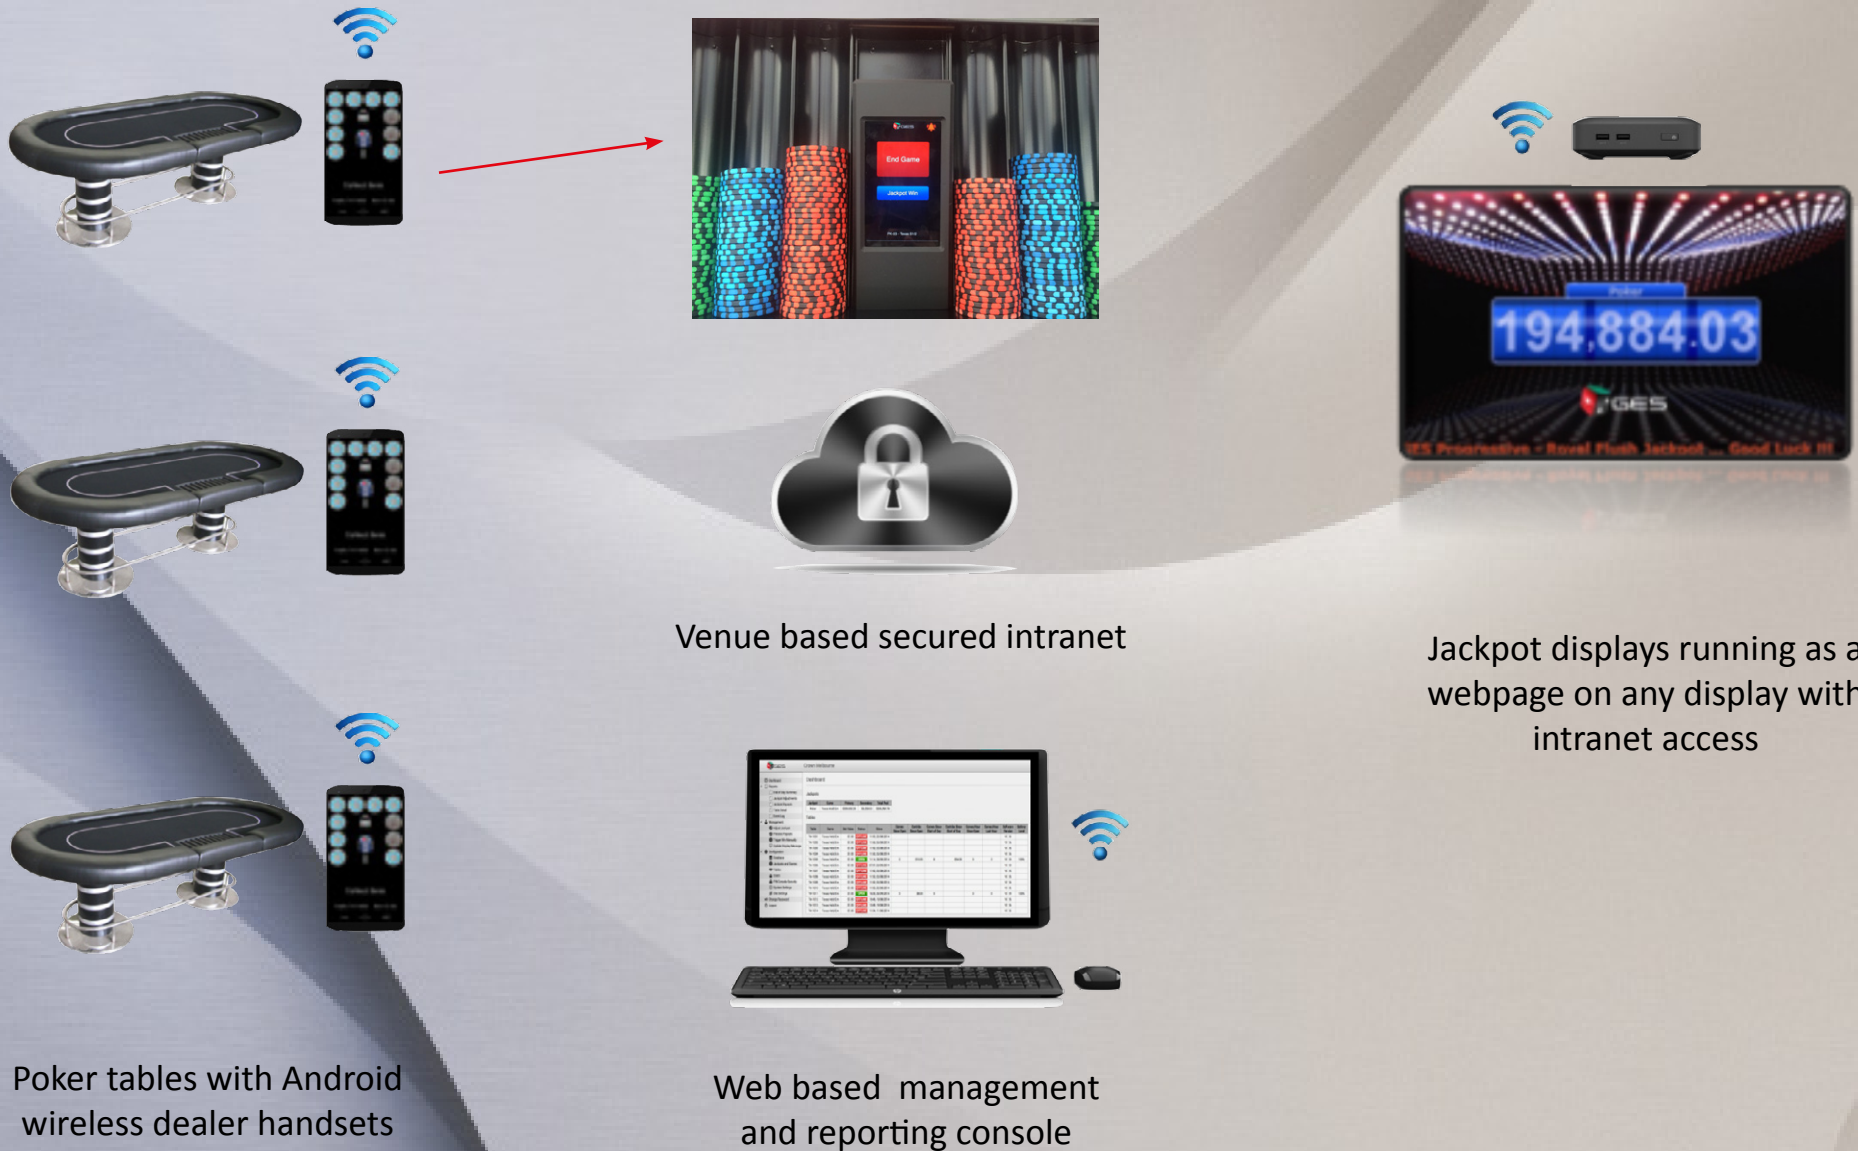

- Bonus and Jackpot system designed specifically for Poker Rooms
- Uses wireless and web based technology
- Table hardware utilizes specially adapted Android smartphones
- Card Room Operator can define their own Jackpot prize structure e.g. Badbeat or Royal Flush Jackpot or both!
- Jackpot contributions can either be funded from the rake fee or via a player side bet
- Sessional High Hand Bonuses

Features and Benefits

Feature	Benefit
Powerful and flexible progressive jackpot and bonus system	Jackpots and bonuses drive player attendance and reward existing player loyalty
Wireless technology	No need to install data cable in the poker room – highly flexible
Small format android table hardware	Reduces table clutter, easy to install and maintain.
Simple operation via illuminating dealer button	Easy for dealing staff to operate – does not impact on normal game operation
Uses web based technologies	Allows operators to use existing computers to manage the system and existing TVs and LCD screens to show jackpot displays
Low cost System using latest generation technologies	Poker rooms need to connect every table – makes the product cost feasible
Fully automated real time live system with full auditing	Player and regulator assurance – existing Poker Room Jackpots are mostly manually operated. Reduces staff costs
